To meet different customer needs, we offer 3 battery health categories

**WE OFFER****1 100% Brand New**
Battery Healthy**DigiSwap
Exclusive
Upgrade**

All iOS devices display battery health, which naturally decreases over time. Apple recommends replacement if it drops below 80%. To provide truly reliable battery performance, DIGISWAP developed its own exclusive upgrade solution.

- Covered by a 1-year warranty.

2 Over 80%
Battery Healthy

- Our standard offering for regular sales
- Covered by a 1-year warranty

3 Below 80%
Battery Healthy

- Ideal for tech-savvy users or short-term use
- Significantly lower prices
- 30-day warranty included

**Budget
Friendly
option**

Every DIGISWAP device undergoes over 72 testing checkpoints, including:

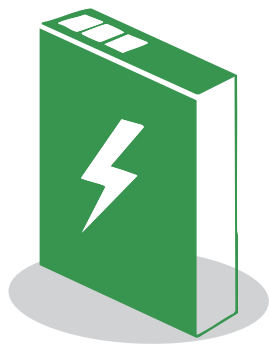

- No water damage
- No motherboard repairs
- No missing parts or screws
- Activation & iCloud lock checks
- Camera and sensor function
- GPS and network tests
- Wi-Fi, video, button, SIM detection
- Verified by diagnostic software
- Plus manual inspection

Note: These devices may require repair. Returns or exchanges due to battery health are not accepted.

DIGISWAP EXCLUSIVE UPGRADE

CRACK HIGH-CAPACITY BATTERY

- + **Original flex cable**
- + **High-performance battery**
- + **Firmware re-flash**
- **100% battery health;**
- **No system warning;**
- **Long-lasting performance**

DEVELOPED BY

GREENCELL
TECHNOLOGY

Note: Minor heating may occur during the first few charge cycles of a brand-new battery. This is normal and will stabilize after full activation.

GENERIC SOLUTIONS NOT USED BY DIGISWAP

Battery Boosting Flex Cable

- Displays artificially high battery health by installing a special flex cable.
- Does not improve actual battery performance; the device may suddenly shut down at 20%–30% battery level.
- Often causes overheating and unstable performance — a deceptive practice that traps consumers.

Generic Third-Party Battery

- Replaces the original battery with a standard aftermarket one, offering some performance improvement but triggering a “non-genuine battery” warning.
- A pop-up alert appears every time the device is turned on, which negatively impacts customer satisfaction.

DEVICE GRADING STANDARDS

Cosmetic Condition: As New

It shows near-mint condition, barely visible signs of use on the screen, back cover, or chassis, ensuring a top-tier experience for the discerning buyer.

Grading Specification: Little to no scratches, no cracks, no scuffs on screen, and housing.
